

Our Journey

Kennz Technologies LLP is a water treatment company which is established in 2005. We're an ISO 9001:2008 Certified Company. Our Journey of more than 16 years. We have made phenomenal progress under his leadership expert guidance.

Kennz Technologies deals with domestic, commercial, and Industrial RO Systems. It includes manufacturing packages of RO systems for ground, bore-well, river, and tap water applications in standard capacities of portable water production.

Choose Pure

If the need be kennz water treatment can custom design, manufacture and install its systems to meet your specific requirements.

The capacities range anywhere from 8 litre/hr to 50000 litre/hr and we are diversified in our approach with single, double and triple tube water filters which come with and without UV attachments as well as softners and water iron remover in various capacities.

Live Pure, Drink Pure

We have supplied more than 5500 industrial plants for various needs such as bottled water manufacturing, soft drink manufacturing, hospitals, villages, schools, colleges, industries, corporate offices, radiators of earth moving equipments etc. and more than 85000 domestic RO plants till date and we strive to maintain state of the art technology and equipment to assist our engineers in the selection and designing of the most effective RO systems according to the type of raw water.

CLEAN LIFE WITH PURE WATER

These R.O System are exclusively designed for you to provide pure safe purified water for your employee and clients each plant is made economical in a way than it consumes reasonably less power consumption and can product purified water 10 paisa per litres max. the safe & purified water may increase your staff efficiency and will make the visitor happy.

LOVE THE TASTE OF PURITY

Why Choose Us

- Supply of fabricated Components
- Design & Engineering
- Training & Consultancy
- Operation & Maintenance
- Erection & Commissioning
- Annual Service/Tables Service
- Spares Management

Advantages

- 100-1000(Litres/h) RO Plant.
- Manual, Semi - Fully Automatic.
- Fetches Water in its Purest form.
- Available in SS & MSPC Skid.
- Requires very less area.
- Reliable very less area.

Our Products

- Reverse Osmosis System
- Water Treatment Plant
- Sewage Treatment System
- Mineral Water Plant
- Dual Media Filter
- Swimming Pool Plant
- Iron Remover System
- Softner System
